

RockyGuard Library Software License Agreement

Version 1.3.2

RockyGuard - C++ License Checking Library

This document provides comprehensive documentation for the RockyGuard library,
a C++17 library for node-locked and floating license management.

RockyGuard Library - Software License Agreement

Version 1.0

Copyright (c) 2025-2026 Rocky Software Inc. All rights reserved.

IMPORTANT NOTICE - PLEASE READ CAREFULLY

This document is a template Software License Agreement prepared for the RockyGuard Library. It is a starting point intended to capture the commercial and technical terms typical for a commercial software licensing product.

LEGAL REVIEW REQUIRED: Before using this agreement with any customer, the Licensor must have it reviewed and adapted by a qualified attorney in the appropriate jurisdiction(s). This template is not legal advice, and neither its completeness nor its enforceability is warranted.

PARTIES AND EFFECTIVE DATE

This Software License Agreement (the "Agreement") is entered into as of the Effective Date set forth in the accompanying vendor license file, by and between:

LICENSOR: Rocky Software Inc.
213 McKean Dr, Stouffville, ON, Canada L4A 5E2
("Licensor", "we", "us", or "our")

LICENSEE: The legal entity identified in the vendor license file issued
to Licensee by Licensor.
("Licensee", "you", or "your")

By installing, copying, or otherwise using the Software (as defined below), Licensee agrees to be bound by the terms of this Agreement. If Licensee does not agree to the terms, Licensee must not install or use the Software.

1. DEFINITIONS

1.1 "Software" means the RockyGuard C++ license-checking library, including

all precompiled static and dynamic libraries, header files, command-line tools, example programs, and accompanying documentation provided by Licensor, together with any updates Licensor makes available under this Agreement.

1.2 "Vendor License" means the signed JSON credential file issued by Licensor

to Licensee that authorizes Licensee's use of the Software. The Vendor License specifies Licensee's authorized tier, license model, hardware bindings, usage limits, and expiry date.

1.3 "End-User License" means a license file that Licensee creates and signs

with Licensee's own private key using the Software, and that Licensee distributes to its own end users for use with Licensee's application.

1.4 "Licensee Application" means the software product(s) developed by

Licensee that integrate the Software for the purpose of authenticating End-User Licenses.

1.5 "End User" means a natural person or legal entity that uses Licensee

Application under an End-User License.

1.6 "Tier" means Basic or Premium, as indicated in the Vendor License and

as described in the accompanying Documentation.

2. LICENSE GRANT

2.1 Subject to Licensee's continued compliance with this Agreement and

payment of applicable fees, Licensor grants to Licensee a non-exclusive, non-transferable, non-sublicensable, worldwide license during the Term to:

- (a) install and use the Software on the machine(s) identified in the Vendor License for the purpose of generating End-User Licenses and, if the Vendor License is Premium tier, operating the RockyGuard floating license server;
- (b) integrate the Software's client-side components (LicenseVerifier, FloatingLicenseClient, HardwareFingerprint) into Licensee Application for distribution to End Users solely to authenticate End-User Licenses issued by Licensee;
- (c) distribute the Software's client-side precompiled binaries (static or shared library, required OpenSSL runtime, and the .sig integrity file) as an embedded component of Licensee Application.

2.2 The Vendor License governs:

- (a) Tier: Basic (node-locked end-user licensing only) or Premium (adds floating license support and configurable generation limits);
- (b) Model: Node-Locked (single Licensee machine) or Developer Seats (up to N authorized Licensee machines);
- (c) Usage limits: for Premium tier, the maximum number of End-User Licenses that Licensee may generate (the "Generation Limit");
- (d) Hardware bindings: fingerprints of the machine(s) on which the Software may be used for license generation;
- (e) Expiry date: the date after which the Vendor License will no longer authorize license generation or floating server operation.

3. RESTRICTIONS

Licensee shall not, and shall not permit any third party to:

3.1 sell, sublicense, rent, lease, lend, or otherwise transfer the Software

or any portion thereof to any third party except as expressly permitted in Section 2.1(c);

3.2 distribute to End Users any server-side components of the Software,

including but not limited to LicenseGenerator, FloatingLicenseServer, vendor_license_create tool, integrity_sign tool, or Licensor's vendor public key materials beyond those embedded in the distributed library binaries;

3.3 distribute, disclose, or grant any third party access to the Vendor

License file, Licensee's private signing keys, or Licensor's private vendor key;

3.4 reverse engineer, decompile, disassemble, or attempt to derive the

source code of the Software, except to the extent such activity is expressly permitted by applicable law notwithstanding this restriction;

3.5 modify, patch, or otherwise alter the compiled Software binaries, or

attempt to circumvent the Software's binary integrity verification, signature verification, clock-manipulation detection, hardware fingerprinting, or any other technical enforcement mechanism;

3.6 delete, tamper with, or otherwise attempt to reset the Software's

persistent state (including but not limited to time anchor files, generation counter files, integrity signature files, or registry entries) with intent to circumvent the Generation Limit, expiry, or other usage restrictions specified in the Vendor License;

3.7 generate End-User Licenses in excess of the Generation Limit specified

in the Vendor License, whether by technical circumvention, re-installation, machine cloning, clock manipulation, or any other means;

3.8 use the Software on machines not authorized by the Vendor License, or

permit machines beyond the authorized set to invoke license-generation functionality;

3.9 use the Software in any manner that violates applicable law, infringes

the intellectual property rights of any third party, or is intended to transmit malware or other harmful code;

3.10 remove, obscure, or alter any copyright, trademark, or other

proprietary notices contained in or on the Software.

The Parties acknowledge that the technical enforcement mechanisms in the Software (including multi-location persistent state, HMAC integrity, clock manipulation detection, and binary integrity verification) are deterrents against accidental or casual misuse. Deliberate technical circumvention of these mechanisms constitutes a material breach of this Agreement

regardless of whether such circumvention succeeds.

4. OWNERSHIP AND INTELLECTUAL PROPERTY

- 4.1 The Software is licensed, not sold. Licensor retains all right, title, and interest in and to the Software, including all intellectual property rights therein. No title or ownership is transferred by this Agreement.
- 4.2 Licensee retains all right, title, and interest in Licensee Application, End-User Licenses Licensee generates, and Licensee's private signing keys. Licensor claims no rights in Licensee's content or End Users.
- 4.3 Feedback, suggestions, or recommendations that Licensee provides regarding the Software are provided on a non-confidential basis, and Licensor may use them without obligation to Licensee.

5. FEES AND PAYMENT

- 5.1 Licensee shall pay Licensor the fees specified in the applicable order form, purchase order, or quotation (the "Order"). All fees are non-refundable except as expressly provided in this Agreement or required by applicable law.
- 5.2 Unless otherwise stated in the Order, all fees are exclusive of taxes. Licensee is responsible for all applicable taxes other than taxes based on Licensor's net income.
- 5.3 Late payments may accrue interest at the lesser of 1.5% per month or the maximum rate permitted by applicable law. Licensor may suspend issuance of new Vendor Licenses or updates while Licensee's account is overdue.

6. TERM AND TERMINATION

- 6.1 This Agreement commences on the Effective Date and continues until the expiry date specified in the Vendor License, unless earlier terminated (the "Term").
- 6.2 Licensor may terminate this Agreement immediately upon written notice if Licensee materially breaches any provision of this Agreement and fails to cure such breach within thirty (30) days after receiving written notice thereof, or immediately and without opportunity to cure in the case of breaches of Sections 3.2, 3.3, 3.4, 3.5, 3.6, or 3.7.
- 6.3 Upon termination or expiry:

- (a) all rights granted to Licensee under Section 2 cease;
- (b) Licensee shall cease all use of the Software and destroy all copies of server-side Software components (including the Vendor License file) within Licensee's control;
- (c) Licensee may continue to distribute copies of Licensee Application that were compiled and built prior to termination, provided that such distribution does not require Licensee to generate new End-User Licenses;
- (d) End-User Licenses validly issued prior to termination remain valid for their stated term.

6.4 Sections that by their nature should survive termination (including

without limitation Sections 3, 4, 7, 8, 9, 10, 11, and 12) shall survive termination of this Agreement.

7. WARRANTIES AND DISCLAIMERS

7.1 Licensor warrants that, for a period of ninety (90) days from the

Effective Date, the Software will perform substantially in accordance with the accompanying Documentation when used in accordance with this Agreement. Licensor's sole obligation, and Licensee's exclusive remedy, for any breach of this warranty is, at Licensor's option, to repair or replace the Software or to refund the fees paid by Licensee for the non-conforming Software.

7.2 EXCEPT FOR THE EXPRESS WARRANTY IN SECTION 7.1, THE SOFTWARE IS

PROVIDED "AS IS" AND "AS AVAILABLE" WITHOUT WARRANTIES OF ANY KIND, WHETHER EXPRESS, IMPLIED, STATUTORY, OR OTHERWISE. LICENSOR SPECIFICALLY DISCLAIMS ALL IMPLIED WARRANTIES OF MERCHANTABILITY, FITNESS FOR A PARTICULAR PURPOSE, TITLE, AND NON-INFRINGEMENT.

7.3 Licensor does not warrant that the Software will meet Licensee's

requirements, operate without interruption, be free of errors, or that any errors will be corrected. Licensor does not warrant that the Software's technical enforcement mechanisms are impervious to all forms of attack or circumvention.

8. LIMITATION OF LIABILITY

8.1 TO THE MAXIMUM EXTENT PERMITTED BY APPLICABLE LAW, IN NO EVENT SHALL

EITHER PARTY BE LIABLE TO THE OTHER FOR ANY INDIRECT, INCIDENTAL, CONSEQUENTIAL, SPECIAL, EXEMPLARY, OR PUNITIVE DAMAGES, INCLUDING WITHOUT LIMITATION LOST PROFITS, LOST REVENUE, LOSS OF GOODWILL, OR LOSS OF DATA, ARISING OUT OF OR RELATED TO THIS AGREEMENT OR THE SOFTWARE, EVEN IF ADVISED OF THE POSSIBILITY OF SUCH DAMAGES.

8.2 EXCEPT FOR LIABILITY ARISING FROM LICENSEE'S BREACH OF SECTION 3 OR

EITHER PARTY'S INDEMNIFICATION OBLIGATIONS, EACH PARTY'S TOTAL AGGREGATE LIABILITY UNDER THIS AGREEMENT SHALL NOT EXCEED THE FEES PAID BY LICENSEE TO LICENSOR IN THE TWELVE (12) MONTHS PRECEDING THE EVENT GIVING RISE TO THE CLAIM.

8.3 THE LIMITATIONS IN THIS SECTION 8 SHALL APPLY NOTWITHSTANDING THE

FAILURE OF ESSENTIAL PURPOSE OF ANY LIMITED REMEDY. THESE LIMITATIONS REFLECT THE ALLOCATION OF RISK BETWEEN THE PARTIES AND ARE AN ESSENTIAL BASIS OF THE BARGAIN.

9. INDEMNIFICATION

9.1 By Licensor. Licensor shall defend, indemnify, and hold harmless

Licensee from any third-party claim alleging that the Software, as provided by Licensor and used in accordance with this Agreement, infringes any patent, copyright, or trademark, and shall pay any damages finally awarded by a court of competent jurisdiction. Licensor's obligations under this Section do not apply to claims arising from: (a) modifications to the Software not made by Licensor; (b) combination of the Software with products or services not provided by Licensor; or (c) use of the Software outside the scope of this Agreement.

9.2 By Licensee. Licensee shall defend, indemnify, and hold harmless

Licensor from any third-party claim arising from: (a) Licensee Application; (b) End-User Licenses generated by Licensee; (c) Licensee's breach of this Agreement; or (d) Licensee's violation of applicable law.

9.3 Procedure. The indemnified party shall: (a) promptly notify the

indemnifying party in writing of the claim; (b) grant the indemnifying party sole control of the defense and settlement; and (c) provide reasonable cooperation at the indemnifying party's expense.

10. CONFIDENTIALITY

10.1 Each party may disclose to the other ("Receiving Party") non-public

information that is designated as confidential or that a reasonable person would consider confidential under the circumstances ("Confidential Information"). Confidential Information of Licensor includes the Software source code (to the extent Licensee obtains access thereto), Licensor's private keys, pricing, and roadmap. Confidential Information of Licensee includes Licensee's private keys, End-User data, and customer lists.

10.2 The Receiving Party shall: (a) use Confidential Information only to

perform its obligations or exercise its rights under this Agreement; (b) protect Confidential Information with the same degree of care it

uses to protect its own confidential information, but in no event less than reasonable care; and (c) not disclose Confidential Information to any third party except to employees, contractors, or agents who have a need to know and who are bound by confidentiality obligations no less protective than those in this Section.

10.3 Confidential Information does not include information that: (a) is

or becomes public through no fault of the Receiving Party; (b) was known to the Receiving Party prior to disclosure; (c) is rightfully received from a third party without confidentiality obligations; or (d) is independently developed without reference to the Confidential Information.

11. DATA AND PRIVACY

11.1 The Software collects and persists locally: hardware fingerprints

of Licensee machines, vendor license identifiers, generation counters, and time anchor timestamps. The Software does not transmit any of this information to Licensor or any third party, except that the Software performs anonymous HTTPS connections to a rotating pool of public internet hosts (e.g., google.com, microsoft.com, cloudflare.com) solely to verify the system clock.

11.2 Licensee is responsible for compliance with applicable data protection

laws with respect to Licensee's own End Users. The Software does not collect personal data from End Users unless Licensee configures it to do so via optional fields in End-User License files.

12. GENERAL PROVISIONS

12.1 Governing Law. This Agreement shall be governed by the laws of

the Province of Ontario, Canada, without regard to conflicts of law principles. The parties submit to the exclusive jurisdiction of the courts of the Province of Ontario, Canada for any dispute arising under this Agreement.

12.2 Export Control. Licensee shall comply with all applicable export

control laws and regulations, including without limitation the U.S. Export Administration Regulations.

12.3 Entire Agreement. This Agreement, together with the Vendor License

file and any Orders referenced herein, constitutes the entire agreement between the parties and supersedes all prior or contemporaneous agreements regarding the subject matter.

12.4 Amendments. Any amendment to this Agreement must be in writing and

signed by authorized representatives of both parties.

12.5 Severability. If any provision of this Agreement is held to be

unenforceable, such provision shall be modified to the minimum extent necessary to make it enforceable, and the remaining provisions shall remain in full force and effect.

12.6 Waiver. No waiver of any breach shall be deemed a waiver of any

subsequent breach. Waivers must be in writing to be effective.

12.7 Assignment. Licensee may not assign this Agreement without Licensor's

prior written consent, except to a successor in connection with a merger, acquisition, or sale of substantially all of Licensee's assets, provided such successor assumes all obligations of this Agreement. Any attempted assignment in violation of this Section is void.

12.8 Notices. Notices under this Agreement shall be in writing and

delivered to the addresses specified in the Order or Vendor License.

12.9 Force Majeure. Neither party shall be liable for delays or failures

in performance caused by circumstances beyond its reasonable control, excluding payment obligations.

12.10 Independent Contractors. The parties are independent contractors.

This Agreement does not create a partnership, joint venture, or agency relationship.

ACCEPTANCE

BY INSTALLING OR USING THE SOFTWARE, OR BY ACCEPTING A VENDOR LICENSE FILE ISSUED BY LICENSOR, LICENSEE ACKNOWLEDGES THAT IT HAS READ THIS AGREEMENT, UNDERSTANDS IT, AND AGREES TO BE BOUND BY ITS TERMS.
